

Products & Services

Ryder's solutions are organized in three interrelated business segments that provide commercial customers with a proven resource for everything from a one-day truck rental, to fleet leasing and maintenance, to design and management of integrated global supply chains.

Ryder's people and solutions are at work behind the scenes helping more than 50,000 customers. Ryder provides critical fleet, dedicated transportation, and supply chain solutions to companies that make the products consumers use every day.

Fleet Management Solutions

Fleet Management Solutions (FMS) includes commercial truck rental and leasing, on-demand and contractual maintenance, used vehicle sales, and related offerings, such as safety products and fuel.
